## **KNIGHT EDUCATIONAL PRODUCTS PROVIDES CUSTOM TOOL KITS TO MEET APPLICATION- SPECIFIC NEEDS OF SKILLED TRADE INDUSTRIES**

DALLAS, TX (March 3, 2010) – Knight Electronics’ Educational Products Division, a global manufacturer and supplier of medical, trade and educational products and training equipment, now offers custom tool kits—including tools and tool cases—to meet the needs of a variety of skilled trade industries such as automotive, A+ certification, computer and networking, electrical, fiber optics, telecommunication, HVAC/refrigeration, welding, carpentry, construction and plumbing.

“Each skilled trade field is highly specialized, so with the custom tool kit option, we are now able to let both students in apprenticeship or training programs and professional technicians decide exactly what tools they need for their application-specific area of expertise,” said David Luna, vice president of sales and marketing for Knight Educational Products. “The tools and tool cases are rugged and designed to provide skilled trade professionals with years of service – most tools have a lifetime or limited lifetime warranty, which is essential in the skilled trade industries.”

## **KNIGHT EDUCATIONAL PRODUCTS PROVIDES CUSTOM TOOL KITS FOR SKILLED TRADES, PG. 2**

Customers can choose from more than 80 tools and six different hard and soft cases in the assembly of their tool kits. Knight Educational Products' tools for skilled trade industries include cable cutters, cable/LAN testers, clamp meters, chisels, couplers, crimp tools, driver sets, framing squares, hammers, hemostats, hex key sets, manifold gauge sets, multimeters, nutdrivers, pliers, safety glasses, scientific calculators, screwdriver sets, shoehandle and knuckle saver brushes, tape measures, telescopic mirrors, welding gloves and helmets, wire strippers, wrenches and more.

The tool cases include an expandable saddlebag; 15-pocket nylon tool case; C-3 case and large tool pallet, with an optional divider set; basic padded zipper case; aluminum "camcorder style" tool case; and a 20" steel tool box. All bags can also be embroidered with school or company logos.

Pricing for the custom tool kits varies depending upon the tool case and tools selected for each kit.
