Tool kits carry limited lifetime warranty...

NEW TOOL KITS DEVELOPED FOR STUDENTS AND COMPUTER/NETWORKING TECHNICIANS

DALLAS, TX (April 9, 2008) – Providing computer service/networking professionals and students with tools and test equipment they need for their chosen fields, Knight Educational Products has developed a series of custom tool kits for tasks ranging from basic computer service to A+ certification training, to complete LAN/network diagnostics and repair. Knight Educational Products is a global manufacturer and supplier of educational training equipment.

“Computer service, network repair technicians and students require good quality tool sets that are matched to their area of specialization,” said David Luna, Vice President of Sales and Marketing for Knight Educational Products. “Kits are available in either rugged zippered soft cases or heavy-duty aluminum hard cases, depending on the kit selected; and most tools have a limited lifetime warranty.”

The Knight tool kits are used for computer repair and service technicians, network/LAN service technicians, and electronic equipment repair professionals and students, Luna said. Knight will also provide custom tool kits for specialized professional applications.
